Fiber Optic Accessories

Fiber Optic Splice Tray

This 12 core Fiber Optic Splice Tray is used in wall mount patch panel, easy to operate and stackable for high fiber count applications. Can be stack into our wall mount patch panel.

Certification and Compliance:
- ISO/IEC 11801 (Generic cabling for customer premises).
- IEC 61073-1 (Mechanical splices and fusion splice protectors for optical fibers and cables).
- EN50173 (Telecommunications Infrastructure Standard for Data Centre).
- 2011/65/EU (ROHS2.0, Directive on Restriction of Hazardous Substances.)

Features:
- Center holes for mounting of the tray.
- Multiple tie down holes for securing incoming fiber.
- Storage and protect splice fibers.
- Large bent radius, simple to install and operate.
- Durable injection-molded plastic tray and cover.
- Accommodate standard heat shrink sleeves in 60mm lengths with 2.5mm shrinked diameter.
